Text

explanatory remarks the present text is edited to facilitate word-searches. the text is based on the manuscript of the transliteration of the abhisamacarika-dharma of the mahasagghika-lokottaravadins. grammatical errors and the like have been left uncorrected, but preferred readings are occasionally given for conspicuous scribal errors. the symbols and editorial features are as follows: (1) the letters between () indicate that they should be supplied. (2) the letters which seem to be wrongly written are underlined. immediately after them suggestion is supplied between (). (3) letters in blue and underlined are to be omitted. no suggestion is supplied after them. this applies to the omission of the virama. (4) the letters between [] indicate that they are obscure. (5) an illegible character (akxaras) is indicated by one "+". (6) symbols which seem to indicate virama are substituted by comma (", "). (7) symbols which seem to be siddham, etc., are substituted by "*". (8) cancellations in the ms. are not indicated. (9) j. refers to the jinananda edition. (10) compounds in which hiatus appears are hyphenated.
