

| The coding of the following text was a part of the project of the Joint |
| Seminar on `Law (dharma) and Society in Classical India' headed by Prof. |
| Y. Ikari at the Institute for Research in Humanities, Kyoto University. |
| The text may be freely distributed and used for scholarly purposes, but |
| we are not responsible for any trouble which might be caused by the use |
| of this file. Suggestions for corrections are most welcome. ü@ |
| Please contact yanom@cc.kyoto-su.ac.jp or ikari@zinbun.kyoto-u.ac.jp |

Input by Y.Ikari; Proofed and KSS variants are added by K.Kano
March 1992.

Revised by Ikari (compound with a. & an.) June 1994.

Text of aapastamba dharmasuutra(AP) based upon B\'uhler's edition (Bombay
Sanskrit Seires Nos.LIV and L), 3rd ed. 1932.

Variant reading is in the parenthesis after the end of each suutra, according
to Kashi Sanskrit Seires No.93 (K) edited by A.Chinnaswami, Benares 1932.

Examples :

1) ---- aaaaa# ---- / (K bbbbb)

KSS reads "bbbbbb" instead of "aaaaa".

2) ---- aaaaa# bbbbbb# --- / (K ccccc.ddddd)

KSS reads "cccccc.ddddd" instead of "aaaaa bbbbbb".

3) --- aaaaa#1 ----- bbbbbb#2 (K 1:cccc, 2:dddd)

KSS reads "cccc" instead of "aaaaa", and "dddd" instead of "bbbbbb".

4) Ap.a.a.a.5 ----- / (= K 6)

a.a.a.5 in BSS corresponds a.a.a.6 in KSS.

5) Ap.a.a.a.5 ---- / (= K 5+6)

a.a.a.5 in BSS corresponds a.a.a.5 and a.a.a.6 in KSS.

6) Ap.a.a.a.5 ---- /

Ap.a.a.a.6 ---- / (5+6 = K 5)

a.a.a.5 in KSS corresponds a.a.a.5 and a.a.a.6 in BSS.

7) ---- /# ---- / (K om. /)

KSS omits / (daNDa).

Differences of Sandhi are neglected and clear misprints are corrected.

TEXT INPUT SYSTEM

- Members of a compound are separated by periods.

- External sandhi is decomposed with '-' (hyphen).

- Verbs are marked by `\'.

Revisions:

- 2020-07-31: TEI encoding by mass conversion of GRETIL's Sanskrit corpus
