### ## Structure of references:

A reference is assembled consisting of

- a pragmatic abbreviation of the title: Kathasaritsagara = ,
- the number of the in arabic numerals,
- the number of the verse in arabic numerals.

## ## Notes:

This file has been created by mass conversion of GRETIL's Sanskrit corpus from sokss\_mu.htm. Due to the heterogeneity of the sources the header markup might be suboptimal. For the sake of transparency the header of the legacy file is documented in the note element below:

Somadeva: Kathasaritsagara

Based on the edition by Durgaprasad and Parab,

Bombay : Nirnaya-Sagar Press 1915

Input by James Mallinson, Elena Artesani, Rabi Acharya, Nirajan Kafle, and  
Tyler Neill

ADDITIONAL NOTES

Minor typos of the edition have been silently corrected,  
emendations, footnotes (incomplete), and chayas (incomplete)  
are given below the respective verse in red square brackets.

METRICALLY ANALYSED VERSION

Metrical analysis is given below each verse

in blue (UTF-8) / outline markup (CSX and REE)

in accordance with the following pattern:

% sequence of short (v) and long (-) syllables with visible word boundaries (|)

% pada (A-F) metre (caesurae/number of syllables/morae)

In case of an Anustubh (vulgo Sloka)

padas A and C (optionally E) are analysed as either pathya or vipula,  
whereas

padas B and D (optionally F) can only be correct or incorrect.
