INTRODUCTION

DURING

the past ten years the Baha'i community of East and West has learned to anticipate each successive volume of THE BAHAI WORLD (the first number was entitled

"Baha'i Year Book") as the best means by which the individual believer may keep abreast of the steady development of the Faith throughout the world. This work, in its

illustrations as well as in its text, has recorded as completely as possible the progress of

current Baha'i events and activities over an area now embracing forty countries. In

addition, each volume has presented those "historical facts and fundamental principles

that constitute the distinguishing features of the Message of Baha'u'llah to this age."

The existence of so many evidences of a newly revealed Faith and Gospel for a

humanity arrived at a turning point in its spiritual and social evolution has likewise a

profound significance for the non-Baha'i student and scholar who desires to investigate

the world religion founded by the Bab and Baha'u'llah. For in these pages the reader

encounters both the revealed Word in its spiritual power, and the response which that

utterance has evoked during the first ninety years of the Baha'i era. He will find what

is

unparalleled in religious history ^ne unbroken continuity of a divine Faith from

the Manifestation onward through three generations of human experience, and will be

able to apprehend what impregnable foundations the Baha'i World Order rests upon in

the life and teachings of the Bab and Baha'u'llah, the life and interpretation of 'Abdu'l-

Baha, and (since the year 1921) in the development of an administrative order under

the direction of the Guardian of the Faith, Shoghi Effendi.

It is the avowed faith of Baha'is that this Revelation has established upon earth the

^piritual impulse and the definite principles necessary for social regeneration and the

attainment of one true religion and social order throughout the world, ""^n THE
BAIIA'I
WORLD, therefore, those who seek a higher will and wisdom than man possesses
may
learn how, amid the trials and tribulations of a decadent society, a new age
has begun
to emerge from the world of the spirit to the realm of human action and belief.

If man is left in his natural state, he will become lower than the animal and

THE SPIRIT AND FORM (5F THE BAHAI ADMINISTRATIVE ORDER

"And now as I look into the future, I hope to see the friends at all times, in every land,
and of every shade of thought and character, voluntarily and joyously rallying round
their local and in particular their national centers of activity, upholding and promoting
their interests with complete unanimity and contentment, with perfect understanding,
genuine enthusiasm, and sustained vigor. This indeed is the one joy and yearning of my
life, for it is the fountain-head from which all future blessings will flow, the broad
foundation upon which the security of the Divine Edifice must ultimately rest."

Article VIII

The Annual Meeting of the National Spiritual Assembly at which its members shall be elected shall be known as the National Convention of the Baha'is of the United States and Canada, and shall be held at a time and place to be fixed by the National Assembly, which shall give sixty days' notice of the meeting to each local Baha'i community through its Spiritual Assembly. The National Assembly shall at the same time inform each Spiritual Assembly of the number of delegates to the Convention it has assigned to the local Baha'i community in accordance with the principle of proportionate representation in such manner that the entire number of delegates composing the National Convention shall be ninety-five. Upon receipt of this notice each local

Spiritual Assembly shall, within a convenient period and after giving due and sufficient notice thereof, call a meeting of the voting members on its rolls for the purpose of electing their delegate or delegates to the National Convention; and, not later than thirty days before the date of the Convention, the Secretary of each local Spiritual Assembly shall certify to the Secretary of the National Spiritual Assembly the names and addresses of the delegates so elected.

Section 7. The presiding officer of the National Spiritual Assembly present at the National Convention shall call to order the delegates,
who shall then proceed to the permanent organization of the meeting, electing a presiding officer, a Secretary and such other officers as are necessary for the proper conduct of the business of the Convention.

Section 8. The principal business of the National Convention shall be the election of the nine members of the incoming National Spiritual Assembly, the consideration of the reports of the financial and other activities of the outgoing National Assembly and its various com-

mittees, and deliberation upon the affairs of the Baha'i Cause in general, it being understood, however, in accordance with the principles of Baha'i administration defined by the Guardian that all deliberation and action of the delegates at the National Convention, other than the election of the members of the incoming National Spiritual Assembly, shall constitute merely advice and recommendation for consideration by the said Assembly, final decision on all matters concerning the affairs of the Baha'i Cause in the United States and Canada being

vested solely in that body.

Section 9. The general order of business to be taken up at the National Convention shall be prepared by the National Spiritual Assembly, but any and all matters pertaining to the Cause introduced by any of the delegates may upon motion and vote be taken up as part of the deliberations of the Convention.

Section 10. The election of the members of the National Spiritual Assembly shall be by plurality vote of the delegates recognized by the outgoing National Spiritual Assembly, i.e., the members elected shall be the nine persons receiving the greatest number of votes on the first ballot cast by delegates present at the Convention and delegates whose ballot has been transmitted to the Secretary of the National Spiritual Assembly by mail or telegram. In case by reason of a tie vote or votes the full membership is not determined on the first ballot, then one or more additional ballots shall be taken until all nine members are elected.

Section n. All official business transacted at the National Convention shall be recorded and preserved in the records of the National Assembly.

Section 12. After the termination of the National Convention and until the next such Annual Meeting has been called in session, the delegates shall continue as a consultative body capable of rendering a dis-

tinctive service to the work of the Cause, and they shall make every effort to contribute to the unified spirit information and useful action of the National Spiritual Assembly throughout the year.

Section 13. Vacancies in the membership of the National Spiritual Assembly shall be filled by a plurality vote of the delegates composing the Convention which elected the Assembly, the ballot to be taken by

correspondence or in any other manner decided upon by the National Spiritual Assembly.

Article IX

Where the National Spiritual Assembly has been given in these By-Laws exclusive and final and paramount executive jurisdiction, authority, in all matters pertaining to the activities and affairs of the Baha'i Cause in the United States and Canada, it is understood that any decision made or action taken upon such matters shall be subject in every instance to ultimate review and approval by the Guardian of the Cause or the Universal House of Justice.

Article X

Whatever functions and powers are not specifically attributed to local Spiritual Assemblies in these By-Laws shall be considered vested in the National Spiritual Assembly, which body is authorized to delegate such discretionary functions and powers as it deems necessary and advisable to the local Spiritual Assemblies within its jurisdiction.

Article XI

In order to preserve the spiritual character and purpose of Baha'i elections, the practice of nominations or any other electoral method detrimental to a silent and prayerful election shall not prevail, so that each elector may vote for none but those whom prayer and reflection have inspired him to uphold.

Among the most outstanding and sacred duties incumbent upon those who have been called upon to initiate, direct and coordinate the affairs of the Cause as members of local or national Spiritual Assemblies are :

To win by every means in their power the confidence and affection of those whom it is their privilege to serve ; to investigate and acquaint themselves with the considered views, the prevailing sentiments and the personal convictions of those whose welfare it is their solemn obligation to promote; to purge their deliberations and the general conduct

of their affairs of self-contained aloofness, the suspicion of secrecy, the stifling atmosphere of dictatorial assertiveness and of every word and deed that may savor of partiality, self-centeredness and prejudice; and while retaining the sacred right of final decision in their hands, to invite discussion, ventilate grievances, welcome advice, and foster the sense of inter-dependence and co-partnership, of understanding and mutual confidence between themselves and all other Baha'is.

Article XII

These By-Laws may be amended by majority vote of the National Spiritual Assembly at any of its regular or special meetings, provided that at least fourteen days prior to the date fixed for the said meeting* a copy of the proposed amendment or amendments is mailed to each member of the Assembly by the Secretary.

Certificate of Amendment to Articles of Incorporation of the
Spiritual Assembly of the Baha'is of the City of
Los Angeles, California.

To THE SECRETARY OF STATE OF CALIFORNIA:

THIS is TO CERTIFY that the undersigned are the Chairman and Secretary
respectively of the Spiritual Assembly of the Baha'is of the City of Los
Angeles,

California, a corporation.

That on the 27th day of January, 1938, the Board of Trustees of said
corporation held a special meeting of the Trustees of said corporation at Room
207

Beaux Arts Building, Los Angeles, California, the place of business of said
corporation. That at said meeting the following Resolution to amend the
Articles of Incorporation of said corporation was duly and regularly adopted
by a majority vote of the Trustees of the corporation, nine being present and
voting therefor, the number of Trustees being nine:

RESOLVED: That paragraph No. 2 of the Articles of Incorporation of
this corporation, be amended to read as follows:

"2. That the purpose and objects for which the corporation is formed
is to administer the affairs of the Baha'i religion, for the benefit of the
Baha'is of the City of Los Angeles, State of California, in accordance
with the religious teachings and administrative purposes of this faith.

"That the following By-laws will be adopted by The Spiritual Assembly
of the Baha'is of the City of Los Angeles:

"Article 1.

"The Baha'is of the City of Los Angeles, California, adopt this Corporation in order to supply proper legal status to their conduct of affairs of a religious community which has had a continuous existence for twenty-nine (29) years. During this period the community has been recognized, encouraged and instructed in letters and communications addressed to it by 'Abdu'l-Baha, the perfect Exemplar of the Baha'i Faith. 'Abdu'l-Baha visited Los Angeles on October 18 and 19, 1912. At 1 P.M., October 19, He visited the grave of Thornton Chase at Inglewood Cemetery. That night He said to the friends: 'You must celebrate yearly, annually, the day of his departure from this life* (September 30, 1912) 'and all of you on My behalf, may go and visit his blessed tomb; and if possible spread a feast for the poor and give charity to those who are deprived on that occasion.' Mr. Chase was the first

Baha'i in America. Since 'Abdu'l-Baha's passing, in the year 1921, the Baha'is of Los Angeles have been encouraged and instructed by Shoghi Effendi, the first Guardian of the Bahd'i Faith and sacred head for life of its Universal House of Justice. The Los Angeles Baha'i community has been continuously and uninterruptedly represented by delegates in the Annual Meetings held by the recognized national Baha'i body of North America since the formation of that body in 1909. The Spiritual Assembly of the Baha'is of Los Angeles, California, is at present enroled (sic) in the list of local Spiritual Assemblies recognized by the National Spiritual Assembly.

"The Trustees, i. e., the Spiritual Assembly, recognize that this action has been taken in full unanimity and agreement. They acknowledge for themselves and on behalf of their successors the sacred meaning and universal purpose of the Baha'i Faith, the teachings and principles of which fulfil the divine promise of all former revealed religions.

"Article 2.

"In administering the affairs of the Baha'i Religion under this corporation for the benefit of the Baha'is of the City of Los Angeles in accordance with the religious teachings and administrative principles of this Faith, the Spiritual Assembly shall act in conformity with the functions of a local Spiritual Assembly as defined in the By-laws adopted by the National Spiritual Assembly and published by that body for the information and guidance of Baha'is throughout the United States and Canada.

"Article 3.

"The Spiritual Assembly, in the fulfilment of its obligations and responsibilities under this corporation, shall have exclusive jurisdiction and authority over all the local activities and affairs of the Baha'i community

of the City of Los Angeles, including paramount authority in the administration of this corporation. It shall be responsible for maintaining the integrity and accuracy of all Baha'i teaching, whether written or oral, undertaken throughout the local community. It shall make available the published literature of the Faith. It shall represent the community in its relations to the National Spiritual Assembly, in its relations to the Guardian of the Baha'i Faith, to other local Baha'i communities, and to the general public in the City of Los Angeles. It shall be charged with the recognition of all applicants requesting membership in the local Baha'i community. It shall pass upon the right of any and all members of the community whose membership is in question to retain their status as voting members of the community. It shall call the meetings of the community, including the Baha'i Anniversaries and Feasts, the meetings of consultation, the Annual Meeting and the meeting for the election of delegates to the Annual Meeting of the National Spiritual Assembly. It shall appoint and supervise all committees of the Baha'i community. It shall collect and disburse all funds intended for the maintenance of this corporation. It shall have full and complete custody of the headquarters or meeting place of the Baha'i community. It shall report to the National Spiritual

Assembly annually, or when requested, the membership roll of the Baha'i community, for the information and approval of the national Baha'i body. The Spiritual Assembly, however, shall recognize the authority

and right of the National Spiritual Assembly to declare at any time what activities and affairs of the Baha'i community of the City of Los Angeles are national in scope and hence subject to the jurisdiction of the National Baha'i body. It shall likewise recognize the right of any member of the community to appeal to the National Spiritual Assembly for review and decision of any matter in which the previous decision of the local Spiritual Assembly is felt by the member to be contrary to the explicit teachings of the Baha'i Faith or opposed to its best interests. on the other hand, have the authority and right to

It shall,

appeal from the decision of the National Assembly to the Guardian of the Baha'i Faith for review and final decision of any matter related to the Faith in the City of Los Angeles.

"Article 4.

"The Spiritual Assembly, in administering this corporation, shall ever bear in mind the ideals upheld in the Sacred Writings of the Baha'i Faith respecting the relationships of a Spiritual Assembly to its Baha'i community, respecting the relations of Baha'is to one another in the

community, and the relationships of Baha'is to all non-Baha'is, without prejudice of race, creed, class or nationality. The Assembly shall therefore above all recognize its sacred duty to maintain full and complete unity throughout the Baha'i community, to relieve and comfort the sick and distressed, to assist the poor and destitute, to protect the

orphans, the crippled and the aged, to educate the children of Baha'is according to the highest religious and intellectual standards, to compose differences and disagreements among members of the community, to promulgate the principles of Divine Civilization revealed by Baha'u'llah, and to promote in every way possible the Baha'i aim of the oneness of mankind. It shall faithfully and devotedly uphold the general Baha'i activities and affairs initiated and sustained by the National Spiritual

Assembly. It shall co-operate wholeheartedly with other local Spiritual Assemblies throughout North America in all matters declared by the National Spiritual Assembly to be of general Baha'i importance and concern. It shall rigorously abstain from any action or influence, direct or indirect, that savors of intervention on the part of a Baha'i body in matters of public politics and civil jurisdiction. It shall encourage intercourse between the Baha'i community of the City of Los Angeles and other recognized Baha'i communities, issuing letters of introduction to Baha'is traveling from Los Angeles and passing upon letters of introduction issued by other Baha'i Assemblies. It shall regard its

authority as a means of rendering service to Baha'is and non-Baha'is and not as a source of arbitrary power. While retaining the sacred right of final decision in all matters pertaining to the Baha'i community, the Spiritual Assembly shall ever seek the advice and consultation of all members of the community, keep the community informed of all its affairs, and invite full and free discussion on the part of the community of all matters affecting the Faith.

"Article 5.

"The Baha'is of the City of Los Angeles, for whose benefit this corporation has been established, shall consist of all persons resident in the City of Los Angeles who are recognized by the Spiritual Assembly as having fulfilled the requirements of voting membership in this local Baha'i

"Article 6.

"The Spiritual Assembly shall consist of nine Trustees chosen from among the Baha'is of the City of Los Angeles, who shall be elected by these Baha'is in a manner hereinafter provided and who shall continue in office for the period of one year, or until their successors shall be elected.

"Article 7.

"The officers of the Spiritual Assembly shall consist of a Chairman, Vice-Chairman, Secretary and Treasurer, and such other officers as may be found necessary for the proper conduct of its affairs. The officers shall be elected by a majority vote of the entire membership of the Assembly taken by secret ballot.

"Article 8.

All subsequent meetings shall be called by the Secretary of the Assembly at the request of the Chairman or, in his absence or incapacity, of the Vice-Chairman, or of any three members of the Assembly; provided, however, that the Annual Meeting of the Assembly shall be held on April 21st, in accordance with the administrative principles recognized by all Baha'i Assemblies.

"Section 1. Five members of the Assembly present at a meeting shall constitute a quorum, and a majority vote of those present and constituting a quorum shall be sufficient for the conduct of business, except as otherwise provided by these By-Laws, and with due regard to the principle of unity and cordial fellowship involved in the institution of a Spiritual Assembly. The transactions and decisions of the Assembly shall be recorded at each meeting by the Secretary, who shall have the minutes adopted and approved by the Assembly, and preserve them in the official records of the Assembly.

the number of vacancies exceeds four, making a quorum of the Spiritual

"Section 2. In the same manner, if any difference arises between the
Assembly and another local Assembly, or Assemblies, in North America,
the Assembly shall report the matter to the national Baha'i Body and
inform that body of its readiness to make joint appeal together with the
other Assembly or Assemblies.

"Section 3. If, however, the result of such appeal is
unsatisfactory
to the Spiritual Assembly, or the Assembly at any time has reason
to
believe that actions of the National Spiritual Assembly are affecting
adversely the welfare and unity of the Baha'i community of the City
of Los Angeles, it shall, after seeking to compose its difference of opinion
with the national body in direct consultation, have the right to make
appeal to the Guardian of the Faith.

"Section 4. The Assembly shall likewise have the right to make complaint to
the National Spiritual Assembly in the event that matters of

shall be held on April 21st, in accordance with the administrative principles recognized by all Baha'i Assemblies.

"Section 1. Five members of the Assembly present at a meeting shall constitute a quorum, and a majority vote of those present and constituting a quorum shall be sufficient for the conduct of business, except as otherwise provided by these By-Laws, and with due regard to the principle of unity and cordial fellowship involved in the institution of a Spiritual Assembly. The transactions and decisions of the Assembly shall be recorded at each meeting by the Secretary, who shall have the minutes adopted and approved by the Assembly, and preserve them in the official records of the Assembly.

"Section 2. Vacancies in the membership of the Spiritual Assembly shall be filled by election at a special meeting of the local Baha'i com-

munity duly called for that purpose by the Assembly. In the event that the number of vacancies exceeds four, making a quorum of the

Spiritual Assembly impossible, the election shall be under the supervision of the National Spiritual Assembly.

"Article 9.

"The sphere of jurisdiction of the Spiritual Assembly, with respect to residential qualification of membership, and voting rights of a believer in the Baha'i community, shall be the locality included within the civil limits of the city of Los Angeles, but Baha'is who reside in adjacent,

outlying or suburban districts and can regularly attend the meetings of the local Baha'i community, may be enrolled on the membership list of the Spiritual Assembly and enjoy full voting rights pending the

establishment of a local Spiritual Assembly in their home community.

"Article 10.

"Section 1. In the event that any decision of the Assembly is unacceptable to any member or members of the community, the Assembly shall after endeavoring to compose the difference of opinion invite the said member or members to make appeal to the national Baha'i body and notify that body of the condition of the matter and the readiness of the Assembly to become party to the appeal.

"Section 2. In the same manner, if any difference arises between the Assembly and another local Assembly, or Assemblies, in North America, the Assembly shall report the matter to the national Baha'i body and inform that body of its readiness to make joint appeal together with the other Assembly or Assemblies.

"Section 3. If, however, the result of such appeal is unsatisfactory to the Spiritual Assembly, or the Assembly at any time has reason to believe that actions of the National Spiritual Assembly are affecting adversely the welfare and unity of the Baha'i community of the City of Los Angeles, it shall, after seeking to compose its difference of opinion with the national body in direct consultation, have the right to make appeal to the Guardian of the Faith.

"Section 4. The Assembly shall likewise have the right to make complaint to the National Spiritual Assembly in the event that matters of local Baha'i concern and influence are referred to the national body by a member or members of the local community without previous opportunity for action by the local Assembly.

THE WORLD ORDER OF BAHÁ'U'LLAH

"Article 11.

"The Annual Meeting of the Corporation at which its Trustees shall be elected shall be held on April 21, at an hour and place to be fixed by the Assembly, which shall give not less than fifteen days' notice of the meeting to all members of the local Baha'i community.

"Section 1. The Assembly shall accept those votes transmitted to the Assembly before the election by members who by reason of sickness or other unavoidable reason are unable to be present at the election in person.

"Section 2. The election of members to the Spiritual Assembly shall be by plurality vote.

"Section 3. All voting members of the local Baha'i community are eligible for election as members of the Spiritual Assembly.

"Section 4. The Assembly shall prepare an agenda for the Annual Meeting in which shall be included reports of the activities of the Assembly since its election, a financial statement showing all income and

expenditure of its fund, reports of its committees and presentation of any other matters pertaining to the affairs of the Baha'i community. The Assembly both preceding and following the annual election, shall invite discussion and welcome suggestions from the community, in order that its plans may reflect the community mind and heart.

"Section 5. The result of the election shall be reported by the Spiritual Assembly to the National Assembly.

"Article 12.

"In addition to the Annual Meeting, the Assembly shall arrange for regular meetings of the Baha'i community throughout the year at intervals of nineteen days, in accordance with the calendar incorporated in the teachings of the Baha'i Faith.

"Article 13.

"The Spiritual Assembly, on notice from the National Spiritual Assembly, report the number of voting members in the local shall

community, that the national Baha'i body may be duly informed of the number of delegates to be assigned to the Baha'i community of the City of Los Angeles in accordance with the principle of proportionate representation controlling the annual election of members to the National Spiritual Assembly.

"Section 1. When informed of the number of delegates assigned to the local community, the Spiritual Assembly shall call a special meeting of the community for the purpose of electing said number of delegates to represent the community at the Annual Meeting of the National Spiritual Assembly.

"Section 2. The election of delegates to the Annual Meeting of the National Spiritual Assembly shall be by plurality vote.

"Section 3. All voting members of the local Baha'i community are

eligible for election as delegates to the Annual Meeting of the National Assembly.

"Section 4. The result of the election shall be reported by the Spiritual Assembly to the National Spiritual Assembly, and the Spiritual Assembly shall meet all the conditions laid down by the national Baha'i body for the recognition of local Spiritual Assemblies and the participation of

local Baha'i communities in the annual election of the national Baha'i body.

"Article 14.

"The seal of the corporation shall be circular in form, bearing the following description: The Spiritual Assembly of the Baha'is of the City of Los Angeles, California, Corporate Seal.

"Article 15.

"These By-Laws may be amended by majority vote of The Spiritual Assembly at any of its regular or special meetings, provided that at least fourteen days prior to the date fixed for the said meeting a copy of the proposed amendment or amendments is mailed to each member of the Assembly by the Secretary."

AND BE IT FURTHER RESOLVED: That paragraph No. 4 of said Articles of Incorporation be amended to read as follows:

Fasting season lasts 19 days beginning with the first day of the

March 2 the feast of Naw-Ruz follows immediately after.

The first day of Ridvan,

The anniversary of the declaration of the Bab,

The anniversary of the birth of BahaVllah,

The anniversary of the birth of the Bab,

The anniversary of the ascension of BahaVllah,

The anniversary of the martyrdom of the Bab,

The Feast of Naw-Ruz.

NOTE: 'Abdu'1-Baha, in one of His Tablets addressed to a believer of Nayriz,
Iran, has

written the following: "Nine days fn the year have been appointed on which
work is forbidden. Some of these days have been specifically mentioned in the
Book. The rest follows as corollaries to the Text. Work on the Day of

. . .

the Covenant (Fete Day of 'Abdu'1-Baha), however, is not prohibited.

Celebration of that day is left to the discretion of the friends. Its
observation is

not ^obligatory. The days pertaining to the Abha Beauty (BahaVllah)
and

the Primal Point (the Bab), that is to say these nine days, are the only
ones

on which work connected with trade, commerce, industry and agriculture is not

allowed. In like manner, work connected with any form of employment, whether governmental or otherwise, should be suspended."

As a corollary of this Tablet it follows that the anniversaries of the birth and ascension of 'Abdu'l-Baha are not to be regarded as days on which work is prohibited. The celebration of these two days, however, is obligatory.

Baha'is in East and West, holding administrative positions, whether public or private, should exert the utmost effort to obtain special leave from their superiors to enable them to observe these nine holy days.

THE MOST JOYFUL TIDINGS

THIS is the year 1936, but for the Baha'is of it. Their faith in God and man is a challenge to the world. March twenty-first will mark the beginning of the ninety-third year since the goals laid down by Baha'u'llah as a frame for the proclamation of their Faith. For them, work for His all-embracing World Order, is Naw-Ruz, this New Year Day, will be an indubitable testimony to the fact that, fraught with especial significance, carrying however dreary human society may have been it will have an acute sense of the contrast between the age-old cultures in which they move and act, and this infant ideal, the future. Young Baha'is, who for the first time this time are meeting in an international celebration of their unity, are pledging to a new pattern. that future their best strength and their promise. Not in recent years will this contrast have been so striking. The message enunciated by Baha'u'llah can make no compromise with the unruly and disordered world of today. Baha'u'llah's declaration. "Justice is, in this day, bewailing its plight, and Equity groaneth beneath the yoke of oppression. Erde, wie du dich verschwendest!

While man

roves, phantom-like,

Alles Spiegel t sich nach oben.

The vale of

heedlessness.

Heiliger Geist, der	du dich spendest,	How can
this shadow make	reply to God?	
komm zu alien die dich loben!		
Never plead ye were not warned		
1st das Licht in jeder Zelle,		That fear and
overwhelming grief		
strahlc die Welt in Gottes Helle.		Would shake ye!
For through unreckoned aeons		
RIDVAN:		True Ones came,
In des neuen Bundes Segen		To
reconcile your will to God's,		
bleibt die Ordnung fesc gelegen.		That Truth
might be renowned.		
Fiihlen wir sie		
urnotwendig,	Forsaken and decried,	
dienend ihr in hundert Arten,		They sang
"A Day of God" and "Covenant"		
bleibt der Geist uns inlebendig,		A people
living lordly exhortations		
wird die Welt ein Gottesgarten.		And
commands;		
His people they, and	He their God.	
Weiter wachst darin die Seele,		
atmet rein sich aller Fehle.	Have ye imagined	
all their counsels		

ADELBERT M(JHLSCHLEGEL. But idle musings of a "moving form of dust?"

"Lo! The Promised One hath come!"

This is the Day of Knowledge and of Love;

XVIII The Day wherein the True shall be distinguished

From the false;

THE CHALLENGE	And "none secure from this
Decree":	

Thy evil deeds and secrets,

That Day when man should yield his will	Nurtured
in satanic gloom,	

To God, dawned!	Shall sear

thy soul with torment;

Though not a single breath of Unity	And ye

shall know what God hath known!

Was wafting to the Court of Holiness,

The "Mystic Bird" gazed earthward	Calamity!

Thy cradle is fran!

"Seeking one heart severed	Thy 'ulamas

"knew not" Jesus nor Muhammad,

That He might alight therein to nest."	Or Him ye

would have Jtknown, The Promised One,

Saw souls stifling	Of Whom
They prophesied!	
"In the garment of a thousand years ago."	Behold He
hath all life all rhythm changed!	
Man, whose destiny is Godward,	Now is the
soul's oblivion pierced,	
Enthralled in selfhood,	As from the
grave of negligence	
Alien to the Mystic Song;	Your hosts
unleash	
His plight known to but One,	Their
calumnies and crielties,	
The Knower!	Their
doubts and base denials	
Inner life and outward form that sprang	
Faithful to Command,	From human
thought all	
That "Bird of Heaven" circled	To perish
in the tumult of a dying day!	
The abyss of godlessness, crying:	Almighty
Day! When only that shall stand	
"Oh people! I am He and He is Me!"	Which
serves the Lord, thy God!	
As the spirit liberated by His Words	And this
thy theme, thine inmost urge	
Mirrored the cosmos,	One Faith,
one Race, one common Cause!	
Aloft two mighty Pillars flamed:	
"Reward and Retribution!"	Now from
the Day-spring of a vital Faith	
"O mortals! Will ye be content	The
Covenant takes form,	
With that which is like vapor in a plain,	And
shielded in the Tabernacle	
Unmindful of the precepts of your Lord?	Of a Mighty
Soul,'	
By one word He called ye into being!	Rises
from out the chaos	
Will ye not be thankful?	Of
receding dispensations!	
I am come to you, O people,	"O ye
people of discernment"	
From the Throne of Glory!	Sing
praises unto God	
Would that your hearts might comprehend!"	He comes
and in His hand the Cup!	
Falling on rocks His words had yielded	His

triumphant song of Oneness	
Springs of crystal water,	Arresting
the movement of the world!	
But impenetrable the heart of man,	
Transcending warring cycles, He,	
Deprived of Faith!	The Ensign
of the Most Great Peace,	
Salutes the Promised Day:	
Holding aloft "a Chalice of Pure Light"	"Lord!
Here am I!"	
He saw no arm outstretched to seize it,	
Nor heart that would reflect it.	The Ancient
Law,	
Remote from Truth is man	Revealed in
symbols in the Day of Abraham;	
That He could view that Flaming Cup	In Moses'
Day inscribed in	
flaming Tablets;	
Immune to	
rapture!	Is, in this
matchless Day, incarnate in a Man,	
Faithless His Trust, when he,	
to	Who "embodies every
virtue, every ideal	
"Created from a clot,* was covenanted	Of this
Holy Cycle's Goal!"	
To reflect to all the kingdoms	"Magnified
be God for this exalted Handiwork!

He is the Most Great Favor unto you,	Where His

Uneclipsed in splendor."	
"Taking the cloak of resignation	His enemies are
scattered now	
In the name of God,"	And martyrdom has
won.	
He taught and labored	Across the
threshold of His prison home	

In this womb-life of the	spirit,	He sweeps,

There, in towering grandeur,		He blest the Earth
