

All words and stems are found in round brackets with grammatical description.
Each verse contains all words of the verse in random order.
Compounds are generally not analyzed, but their stem components are list with a hyphen.
Occasionally bahuvrihi compounds are indicated (bv. cpd.).
The roots of finite verbs are indicated by the " sign,
followed by their voice, person and number.
A hyphen is used to separate the negative prefixes (a-) (an-).
A few suffixes are indicated by square brackets.
